

'Capability assessment' in Tallinn

Thematic seminar South-Holland South February 2011

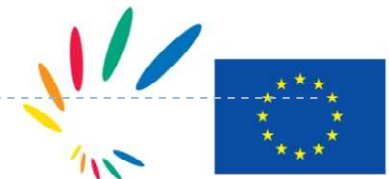

1. Past experiences with capability assessment

City Engineering Department has just created:

Tallinn Emergency Risk Analysis 2010 (TERA)

and

Tallinn Emergency Capability Plan 2010 (TECP)

2. Changes in legislation taken into account

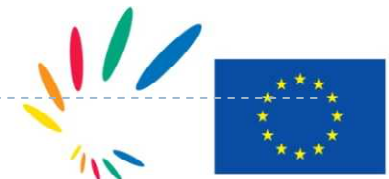

Changes in Emergency Legislation:

Local Municipality has to take into account the results of:

Tallinn Emergency Risk Analysis,

Tallinn Emergency Capability Plan

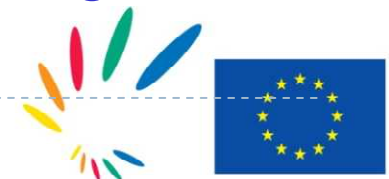

The Strategic Evaluation of Influences on Environment

3. Priority list of emergencies

1. Fire, explosions
2. Storm, flooding
3. Sea/Coastal pollution
4. Land pollution
5.  Road/Railway accidents
6. Accidents in transporting/storing dangerous goods

4. Priorities based and not based on the list

MiSRaR priorities for mitigation for Tallinn:

As a result of work in our local working group:

1. Mitigation plan for real estate development and it's influence on Bird Protection Area (Natura 2000);
2. Mitigation plan for alternative water supply in case of emergency;
3. Mitigation plan for fire and explosion probability in the area of North Tallinn.
